Current Role

Full Stack Developer

Red Ventures – 05/24 - Present – San Juan, Puerto Rico

- Migrated critical forms to Next.js, supporting thousands of scholarship applications on our site with over 100k daily requests.
- Restored lead funnel for usnews.com partnership by fixing Safari compatibility bug.
- Improved site performance and developer efficiency by leading design system implementation for a high-traffic site.

Previous Experience

Mobile Developer (Full Stack)

Copper Labs – 03/20 - 04/23 – Boulder, CO

- Reduced hardware support tickets 60% by improving hardware and data discoverability for Xcel Energy customers.
- Optimized mobile user onboarding in coordination with Pixelspace design team.

Full Stack Developer

CareLinx (acquired by ShareCare) – 09/18 - 02/20 – San Bruno, CA (Remote from San Juan)

- Improved family-caregiver matching through successful UX/UI redesign of the family dashboard.
- Increased onboarding completion rate by implementing gamified onboarding journey.

iOS Developer

ReMidi – 06/17 - 06/18 – Turin, Italy (Remote from San Juan)

- Reduced touch-to-audio latency for accurate timing between user input and audio feedback.
